1. Introduction

1.1 About the Competency Assessment System (CAS)

Welcome to the Ethiopian Pharmaceutical Supply Service (EPSS) Competency Assessment System (CAS). This web-based platform is designed to standardize and streamline employee performance evaluations. CAS empowers staff to conduct self-assessments, track their professional growth over time, and align their individual performance with the strategic goals of the organization.

This manual provides all the information you need to effectively use CAS, whether you are a standard employee, a team leader, a manager, or an administrator.

1.2 Key Benefits and Features

- **Standardized Evaluations:** Ensures all staff are assessed against consistent competencies, including forecasting, procurement, and warehouse.
- **Role-Based Access:** Provides a tailored interface and functionality based on your specific role within EPSS.
- **Data-Driven Insights:** Tracks performance trends and identifies skill gaps.
- **Accessibility & Flexibility:** Supports multiple languages (English, Amharic), customizable visual themes, and can be installed as a Progressive Web App (PWA) for offline-capable access on desktops and mobile devices.
- **Security:** Features of local authentication, Single Sign-On (SSO) options, and data export controls.

2. Getting Started: System Access

2.1 Supported Browsers and Devices

CAS is accessible from any modern web browser, including Google Chrome, Mozilla Firefox, Microsoft Edge, and Safari. The platform is designed to be fully functional on desktops, laptops, tablets, and smartphones.

2.2 How to Log In

1. Open your web browser and navigate to the CAS platform at <https://cas.example.gov>
2. The login page will be displayed. Enter your **Username** and **Password** in the provided fields.
3. Click the **Sign In** button.

Note: You may also click the **Sign in with Google** button to use Single Sign-On (SSO).

- The login interface features a secure portal clearly labeled "EPSS Competency Assessment System (CAS)".
- You will find standard fields for **Username** and **Password** followed by a **Sign In** button.
- Below this, an "**OR CONTINUE WITH**" divider provides a **Sign in with Google** option for SSO.
- At the bottom, a **LANGUAGE** toggle allows you to seamlessly switch between English (EN) and Amharic (AM) before logging in.

2.3 Troubleshooting Login Issues

Issue	Likely Reason	Recommended Solution
Forgot Password	Password lost or forgotten.	Contact your system administrator to reset your account.
Account Pending Approval	New account created via SSO, awaiting activation.	Contact your supervisor or an administrator to approve your account.
Browser/Display Issues	Outdated browser cache or disabled JavaScript.	Ensure JavaScript is enabled in your browser settings. Clear your browser's cache and cookies, then close and reopen the browser before trying again.
Cannot Access Specific Modules	Incorrect user role assigned to your account.	Verify your role with your supervisor or administrator. If your role has changed, request an update to your profile.

2.4 How to Log Out

To securely end your session, click the **Logout** button located in the top-right corner of the screen. This is especially important when using a shared or public computer.

2.5 Installing CAS as a Progressive Web App (PWA)

CAS is a Progressive Web App (PWA), meaning you can install it on your device for quick access and limited offline functionality (e.g., viewing draft assessments).

1. After logging in, navigate to **Account & Tools > Install App**.
2. Your browser will prompt you to confirm the installation. Follow the on-screen instructions to add CAS to your home screen or desktop.
3. Once installed, the app will launch like any other native application.

Note: While you can view saved drafts offline, submitting assessments and using most features require an active internet connection.

3. Navigating the System

3.1 The Global Navigation Bar

The top navigation bar is your primary tool for moving through the system. The options available depend on your user role.

- **My Workspace:** Your personal dashboard. Access this to start new assessments, view your performance history, and download personal reports.
- **Team & Reviews:** (Visible to Managers and Team Leads) This section allows you to oversee your team's performance and access Analytics for more reports and analysis.
- **Administration:** (Visible to Administrators only) The control panel for managing users, creating questionnaires, configuring departments, and adjusting system settings.
- **System:** (Admin-only) View global configurations and manage integrations with analytics tools like Google Looker Studio.
- **Account & Tools:** A dropdown menu where you can update your profile, change settings, and install the PWA.

3.2 Customizing Your Interface: Language and Theme

In the top-right corner of the screen, next to the **Logout** button, you will find tools to personalize your experience:

-  **Language Selector:** Click the flag icon (e.g., UK flag for English, ET flag for Amharic) to change the display language for the entire interface and questionnaires.

-  **Theme Toggles:** Click the sun/moon icons or colored dots to switch between light mode, dark mode, or high-contrast themes for better visual comfort and accessibility.
-

4. Managing Your User Profile

Keeping your profile up to date ensures that assessments are correctly assigned and your reports are accurate.

4.1 Accessing and Updating Your Profile

1. Click on **Profile icon** in the top navigation bar.
2. Your profile page will display your current details. You can update the following fields as needed:
 - **Department:** Select your directorate from the dropdown list (e.g., Contract Management).
 - **Team:** Choose your specific team (e.g., Air Shipping).
 - **Work Role:** Select your job designation (e.g., Director, Expert).
 - **Contact Information:** Update your phone number.
 - **Password:** Enter a new password to change your credentials. It must be at least 8 characters long and include numbers and symbols.
3. Click the **Save Changes** button at the bottom of the page to apply your updates.

The screenshot shows the 'EPSS Competency Assessment System (CAS)' interface. At the top, there's a blue header with the system name and three circular icons. Below the header, there's a navigation bar with 'My Workspace' and 'Account & Tools' dropdowns. The main content area is titled 'Profile Information' and contains the following fields:

- Full Name ***: Text input with 'Demo'.
- Email ***: Text input with 'yb@msh.org'.
- Gender ***: Dropdown menu with 'Male' selected.
- Date of Birth ***: Date picker showing '02/17/2010'.
- Phone Number**: Text input with '960101011'. Above it, a dropdown shows 'ET +251 — Ethiopi'.
- Department ***: Dropdown menu with 'Contract Management Directo'.
- Team in the Department ***: Dropdown menu with 'Air Shipping Management Tea'.
- Work Role ***: Dropdown menu with 'Director / Manager'.
- Preferred Language**: Dropdown menu with 'English'.
- New Password (optional)**: Text input.

A 'Save Changes' button is located at the bottom right of the form.

- Navigate to the **Profile icon** from the top bar to access the profile form.
- The form includes clear dropdown menus labeled: Department, Team in the Department, Work Role, and Preferred Language.
- A text box is available for a New Password (optional), next to the prominent Save Changes button.

4.2 Understanding Account Status

If your account was created via SSO, it may initially have a "Pending" status. You will see a status message on your profile page indicating that your account awaits administrator approval. Please contact your supervisor or an admin to activate it fully.

5. Core Tasks for Users: Completing an Assessment

This section guides you through the process of completing a self-assessment.

5.1 Starting a New Self-Assessment

1. From your **My Workspace** menu, click on the **Submit Assessment** option.

2. **Select Questionnaire:** From the dropdown menu, choose the appropriate questionnaire for your role (e.g., "Director Assessment: Contract Management").
3. **Select Performance Period:** Choose the evaluation period (e.g., "2027 H1"). The system will indicate which periods you have already completed.
4. The questionnaire will then load and be ready for you to complete.

The screenshot displays the EPSS Competency Assessment System (CAS) interface. At the top, there is a blue header with the system name and user profile information. Below the header, a 'My Workspace' dropdown menu is open, showing options for 'My Performance' and 'Submit Assessment'. The 'Submit Assessment' section is active, featuring two dropdown menus: 'Select questionnaire' (set to 'Director/Team Leads Assessment: Contract Management') and 'Performance Period' (set to '2025 H2'). On the left, a 'Questionnaire navigation' sidebar lists sections like 'Background Information', 'Gender', 'Designation / Job Title', and 'Select your role in the Directorate'. The main content area, titled 'Director/Team Leads Assessment: Contract Management', shows the 'Background Information' section with a 'Gender' field containing radio buttons for 'A) Male' and 'B) Female'. A 'Save Draft' button is visible in the bottom right corner of the form area.

- Navigate to My Workspace > Submit Assessment.
- Select Questionnaire: Choose the form that matches your role.
- Select Performance Period: Choose the specific evaluation period (e.g., 2026 H1).

5.2 Navigating the Questionnaire

The questionnaire is divided into sections for easy navigation.

- **Left Sidebar (Navigation Pane):** This panel displays a folder-tree view of all sections (e.g., Background Information, Core Competency A: Forecasting). You can click on any section to jump directly to it.

- **Main Content Area:** This is where you will read and answer the questions for the currently selected section.

5.3 Answering Questions and Saving Drafts

- **Question Types:** Questions may appear as radio buttons (single choice), checkboxes (multiple choice), or text fields for open-ended responses.
- **Mandatory Fields:** Fields marked with an asterisk (*) are mandatory. You cannot submit the assessment until all mandatory fields are completed.
- **Save:** It is a good practice to click the **Save Draft** button frequently, especially before navigating away from a section.

5.4 Submitting Your Final Assessment

1. Before submitting, review all sections to ensure every question has been answered and you are satisfied with your responses.
2. Scroll to the bottom of the final section and click the **Submit** button.

Warning: Submission is a final action. Once submitted, you may not be able to edit your responses. Please confirm your submission.

5.5 Viewing Your Past Performance and History

1. From your **My Workspace** menu, click on **My Performance**.
2. This page displays a history of your completed assessments, including scores and performance trends over time.
3. To download a copy of your results, click the Download button and select your preferred format (CSV or PDF).

- Navigate to My Workspace > My Performance

6. Supervisor Tasks: The Team & Reviews Module

This module provides supervisors with the tools to manage their team's performance evaluations.

6.1 Accessing Team Submissions

1. Navigate to the **Team & Reviews** section from the main navigation bar.
2. You will see a list of your team members' assessment submissions.

6.3 Generating Team Reports

- You can export team performance data by clicking the **Download PDF** button. This generates a file with all relevant submission data for your team.

7. Administrator Tasks: System Administration

This section provides a high-level overview of key administrative functions. These tools are only accessible to users with the Administrator role.

7.1 Managing Users

- **Path: Administration > Manage Users**

- This is a central grid for managing all system users. Administrators can:
 - Invite new users to the platform.
 - Assign or modify user roles (e.g., Admin, Director, Expert User).
 - Approve or reject pending user accounts created via SSO.
 - Activate or deactivate user accounts.
 - Filter and search for users by department, role, or status.

7.2 Managing Questionnaires

- **Path: Administration > Manage Questionnaires**
- This module allows you to build and edit assessment forms. Using standards-based tools, you can:
 - Create new questionnaires or edit existing ones.
 - Add, remove, or reorder sections and questions.
 - Define question types (multiple choice, text, etc.) and set validation rules (marking questions as mandatory).
 - Import or export questionnaires using XML file format.

- Navigate to Administrator menu > Manage Questionnaires

7.3 Configuring Department Defaults

- **Path: Administration > Department Defaults & Metadata**
- You can create and edit departments, teams, and roles, ensuring the data in user profiles and reports is accurate.

- Navigate to Administrator menu > Department Defaults & Metadata

7.4 Customizing Branding

- **Path: Administration > Branding & Landing**
- Customize the look and feel of the CAS platform for your organization. Upload logos, set color schemes, and modify the content of the login page.

Footer Details

Organization Name: Ethiopian Pharmaceutical Supply Service

Organization Short Name: EPSS

Website Label: epss.gov.et

Website URL:

- Navigate to Administrator menu > Branding and Landing

7.5 Mapping Course Recommendations

- **Path: Administration > Course Mappings**
- This feature allows you to link assessment scores to training recommendations. For example, you can configure the system to suggest a specific external course on "Advanced Forecasting" if a user scores below a certain threshold in that competency area.

EPSS Competency Assessment System (CAS)

My Workspace Team & Reviews Administration System

Moodle Course Mapping

Map questionnaire + score ranges to external Moodle courses.

Tip: create multiple rows per questionnaire (basic, advanced, optional advanced) using different score bands.

Course Code: Course: Moodle URL: Work Role: Select Questionnaire: All questionnaires Minimum Score: 0 Maximum Score: 100 Save Changes

Configured Mappings

COURSE CODE	COURSE	WORK ROLE	QUESTIONNAIRE	SCORE BAND	MOODLE URL	ACTIONS
FIN-101	Financial Management Fundamentals	finance	All questionnaires	0 - 79%	https://moodle.example.com/course/fin101	Delete

- Navigate to Administrator menu > Course Mapping

8. Reporting and Analytics

- **Personal Reports:** Standard users can access their own data via **My Workspace > My Performance**.
- **Team Reports:** Managers can export team data directly from the **Team & Reviews** section.
- **Bulk Data:** Administrators have the tools to export bulk system data for analysis. For custom reporting needs, the system also provides an API (accessible via the /swagger endpoint).

- Navigate to Team & Reviews > Analytics

9. Tips and Best Practices

9.1 Security Best Practices

- Use strong, unique passwords and consider enabling SSO for a more secure and convenient login.
- Always click the **Logout** button to end your session, especially on shared devices.
- Immediately report any suspicious activity or potential security breaches to the EPSS IT department.

9.2 Troubleshooting Common Issues

Issue	Possible Cause(s)	Recommended Solution
Cannot submit an assessment	One or more mandatory questions are unanswered.	Use the navigation pane to review each section. Look for any questions marked with an asterisk (*) that are still empty.
Changes to my profile are not saved	A required field is missing or you do not have permission.	Ensure all fields are filled out correctly. Some fields (like Department or Role) may require admin approval; you will see a confirmation message if this is the case.
The system is not loading properly	Internet connectivity issues or browser cache problems.	First, check your internet connection. If you are online, try clearing your browser's cache and cookies. Restarting your browser or device can also help.
Offline access limitations	No active internet connection.	The PWA allows you to view any saved draft assessments. However, you must be online to submit a final assessment, view reports, or use any other feature that requires data sync.
